DETAILED ACTION

Election/Restrictions

1. Newly submitted claims 35-40 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: These claims recite methods of use of the claimed compositions, which can be used for other purposes, such as in aerosol propellants.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 35-40 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 16 and 20 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Applicant has broadly claimed any and all azeotropic compositions comprising 1,1,1,3,3-pentafluorobutane and any and all non-fluorinated solvents. The

Art Unit: 1751

specification does not demonstrate that applicant knows the proportions in which such compositions form azeotropes or if they form azeotropes at all. Applicant should amend the claim to recite only those compositions for which applicant has provided enabling disclosure.

Claim Rejections - 35 USC § 103

4. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

5. Claims 12-14 and 24-31 are rejected under 35 U.S.C. 103(a) as being unpatentable over Michaud et al., US 5,973,055 for the reasons of record in the previous office action.

Allowable Subject Matter

6. Claims 15 and 17-19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Reasons are of record in the previous office action.

Response to Arguments

7. Applicant's arguments filed January 24, 2005 have been fully considered but they are not persuasive. Applicant argues that, contrary to the examiner's assertion, claim 16

is enabled. This is not persuasive because applicant has not pointed to any portions of the specification which would support applicant's claim to enablement.

Applicant argues that the Michaud reference discloses a number of solvents, but no examples in which two solvents are used, let alone both a fluoroamine and 1,1,1,3,3-pentafluorobutane. This is not persuasive because it is prima facie obvious to combine two compositions, each taught for the same purpose, to yield a third composition for that very purpose. *In re Kerkhoven*, 205 USPQ 1069, *In re Pinten*, 173 USPQ 801, and *In re Susi* 169 USPQ 423. When ingredients are well known and combined for their known properties, the combination is obvious absent unexpected results. *In re Crocket*, 126 USPQ 186 and *In re Pinten*, 173 USPQ 801. The person of ordinary skill in the surfactant art would expect combinations of these materials to behave in the same fashion as the individual materials, absent unexpected results.

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed; and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
